

PERSONALIZED MEDICINE *CareLine*

We Care About Your Treatment Journey and We're Here to Help.

CONTACT US FOR FREE!

At Patient Advocate Foundation (PAF), we know that living with a serious health condition can be overwhelming and believe great care begins with a great plan.

Our mission is to help patients access care and treatment recommended by their physician. PAF remains committed to offering financial, access to care and social needs navigation.

The Personalized Medicine CareLine is for patients who are getting or thinking about getting genetic or genomic testing. Our case managers offer free, one-on-one support to patients and families to help them solve real-life problems accessing testing or identified treatment. Whether you need help finding resources for financial aid, understanding coverage options, resolving issues with the insurance company, or applying for disability, we are here to support you.

All services are confidential and free of charge.

This program is operated by Patient Advocate Foundation.

ARE YOU ELIGIBLE?

- Diagnosed with a serious health condition and getting or thinking about getting genetic or genomic testing?
- Be in, just starting or just ending treatment?

IF SO, WE CAN HELP!

- Navigate insurance denials preventing coverage of tests or identified treatment, clinical trials or second opinions
- Reduce financial burden with charitable and community resources
- Enroll in health insurance, disability, and social programs
